

## SAFETY DATA SHEETS

**This SDS packet was issued with item:**

078013233

N/A

**SAFETY DATA SHEET**  
**C. E. T.® Enzymatic Toothpaste – Vanilla Mint Flavor**

---

**1. IDENTIFICATION**

---

<b>Product Name</b>	C. E. T.® Enzymatic Toothpaste – Vanilla Mint Flavor
<b>Recommended use of the chemical and restrictions on use</b>	
<b>Identified uses</b>	Toothpaste for cats and dogs
<b>Restrictions on Use</b>	For veterinary use only
<b>Product Numbers</b>	CET201
<b>Company Identification</b>	Virbac AH, Inc. P.O. Box 162059 Fort Worth, Texas 76161
<b>Customer Information Number</b>	(800) 338-3659
<b>Emergency Telephone Number</b>	
<b>CHEMTREC Number</b>	(800) 424-9300
<b>Other Emergency Number:</b>	Poison Control Center: 1-800-222-1222
<b>Issue Date</b>	May 5, 2015
<b>Supersedes Date</b>	March 30, 2011

*Safety Data Sheet prepared in accordance with OSHA's Hazard Communication Standard (29 CFR 1910.1200) and the Globally Harmonized System of Classification and Labelling of Chemicals (GHS)*

---

**2. HAZARD IDENTIFICATION**

---

**Hazard Classification**

This product is classified as not hazardous in accordance with the Globally Harmonized System of Classification and Labelling (GHS).

**Label Elements**

Hazard Symbols

None

Signal Word: None

**Hazard Statements**

None

**Precautionary Statements**

**Prevention**

None

**Response**

None

**Storage**

None

**Disposal**

None

**Other Hazards**

None

---

## 2. HAZARD IDENTIFICATION

---

### Specific Concentration Limits

The values listed below represent the percentages of ingredients of unknown toxicity.

Acute oral toxicity	<1%
Acute dermal toxicity	30 - 40%
Acute inhalation toxicity	50 - 60%
Acute aquatic toxicity	45 - 55%

---

## 3. COMPOSITION/INFORMATION ON INGREDIENTS

---

### Synonyms:

This product is a mixture.

Component Name	CAS Number	Concentration
Sorbitol	50-70-4	30 - 40%
Amorphous silicon dioxide	112926-00-8	5 - 15%
Glycerine	56-81-5	1 - 10%
Titanium Dioxide	13463-67-7	0.1 - <1.0%

---

## 4. FIRST - AID MEASURES

---

### Description of necessary first-aid measures

#### Eyes

Immediately flood the eye with plenty of water, holding the eye open. Obtain medical attention if soreness or redness persists.

#### Skin

If irritation develops wash skin thoroughly with soap and water. Obtain medical attention if redness or soreness persists.

#### Ingestion

Call a poison control center or doctor immediately for treatment advice. Do not induce vomiting unless told to do so by a poison control center or doctor. Do not give anything by mouth to an unconscious person.

#### Inhalation

Remove person to fresh air. Seek medical attention if symptoms persist.

### Most important symptoms/effects, acute and delayed

Aside from the information found under Description of necessary first aid measures (above) and Indication of immediate medical attention and special treatment needed, no additional symptoms and effects are anticipated.

### Indication of immediate medical attention and special treatment needed

#### Notes to Physicians

Treat symptomatically.

---

## 5. FIRE - FIGHTING MEASURES

---

### Extinguishing Media

Use extinguishing media appropriate for surrounding materials.

---

## 5. FIRE - FIGHTING MEASURES

---

### Unusual Fire and Explosion Hazards

Can release hazardous vapors during a fire.

### Protective Equipment for Fire-Fighting

Wear full protective clothing and self-contained breathing apparatus.

---

## 6. ACCIDENTAL RELEASE MEASURES

---

### Personal precautions, protective equipment and emergency procedures

Wear appropriate protective clothing.

### Environmental Precautions

Prevent the material from entering drains or watercourses.

### Methods and materials for containment and cleaning up

Wipe up and transfer into suitable containers for recovery or disposal. Prevent the material from entering drains or watercourses.

---

## 7. HANDLING AND STORAGE

---

### Precautions for safe handling

Wear appropriate protective clothing.

### Conditions for safe storage

Store in original container in a cool, dry place. Store away from children and pets.

---

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

---

### Control parameters

Exposure limits are listed below, if they exist.

#### Glycerin (Mist)

ACGIH: TLV 10 mg/m<sup>3</sup> 8h TWA.

OSHA: PEL 5 mg/m<sup>3</sup> 8h TWA respirable fraction

15mg/m<sup>3</sup> 8h TWA total dust

#### Silica: Amorphous, including diatomaceous earth

OSHA: PEL 20 mppcf 8h TWA

0.8 mg/m<sup>3</sup> 8h TWA

The exposure limit is calculated from the equation,  $80/(\%SiO_2)$ , using a value of 100% SiO<sub>2</sub>. Lower values of % SiO<sub>2</sub> will give higher exposure limits.

#### Titanium Dioxide

ACGIH TLV: 10 mg/m<sup>3</sup> TWA

OSHA PEL: 15 mg/m<sup>3</sup> TWA, total dust

### Appropriate engineering controls

No specific measures necessary. Good general room ventilation is expected to be adequate to control airborne levels.

---

**8. EXPOSURE CONTROLS/PERSONAL PROTECTION**

---

**Individual protection measures****Respiratory Protection**

Not required under normal conditions of use.

**Skin Protection**

Gloves

**Eye/Face Protection**

Not required under normal conditions of use.

**Body Protection**

Normal work wear.

---

**9. PHYSICAL AND CHEMICAL PROPERTIES**

---

**Appearance**

<b>Physical State</b>	Solid (paste)
<b>Color</b>	White to off-white

<b>Odor</b>	Mint, sweet
-------------	-------------

<b>Odor Threshold</b>	No data available
-----------------------	-------------------

<b>pH</b>	No data available
-----------	-------------------

<b>Density</b>	No data available
----------------	-------------------

<b>Boiling Range/Point (°C/F)</b>	No data available
-----------------------------------	-------------------

<b>Melting Point (°C/F)</b>	No data available
-----------------------------	-------------------

<b>Flash Point (PMCC) (°C/F)</b>	Not flammable
----------------------------------	---------------

<b>Vapor Pressure</b>	No data available
-----------------------	-------------------

<b>Evaporation Rate (BuAc=1)</b>	No data available
----------------------------------	-------------------

<b>Solubility in Water</b>	No data available
----------------------------	-------------------

<b>Vapor Density (Air = 1)</b>	No data available
--------------------------------	-------------------

<b>VOC</b>	No data available
------------	-------------------

<b>Partition coefficient (n-octanol/water)</b>	Not applicable
--	----------------

<b>Viscosity</b>	Not applicable
------------------	----------------

<b>Auto-ignition Temperature</b>	No data available
----------------------------------	-------------------

<b>Decomposition Temperature</b>	No data available
----------------------------------	-------------------

<b>Upper explosive limit</b>	No data available
------------------------------	-------------------

<b>Lower explosive limit</b>	No data available
------------------------------	-------------------

<b>Flammability (solid, gas)</b>	No data available
----------------------------------	-------------------

---

**10. STABILITY AND REACTIVITY**

---

**Reactivity**

Data is not available

**Chemical Stability**

Stable under normal conditions.

**Possibility of hazardous reactions**

Hazardous polymerization will not occur.

**Conditions to Avoid**

Heat - high temperatures

---

## 10. STABILITY AND REACTIVITY

---

### Incompatible Materials

None known.

### Hazardous Decomposition Products

Oxides of carbon - acrolein

---

## 11. TOXICOLOGICAL INFORMATION

---

### Acute Toxicity

#### Sorbitol

Oral LD50 (rat) 15,900 mg/kg

#### Glycerin

Oral LD50 (rat) >5000 mg/kg

Dermal LD50 (guinea pig) >50,000 mg/kg

Inhalation LC50 (rat) >2.75 mg/L 4hr

#### Amorphous Silicon Dioxide

Oral LD50 (rat) > 5000 mg/kg

Dermal LD50 (rabbit) >2000 mg/kg

### Specific Target Organ Toxicity (STOT) – single exposure

Sorbitol: Reports of adverse reactions to sorbitol are largely due to its action as an osmotic laxative when ingested orally, which may be exploited therapeutically. Ingestion of large quantities of sorbitol (> 20g/day in adults) should therefore be avoided.

### Specific Target Organ Toxicity (STOT) – repeat exposure

Available data indicates this product is not expected to cause target organ effects after repeated exposure.

### Serious Eye damage/Irritation

Available data indicates this product is not expected to cause eye irritation.

### Skin Corrosion/Irritation

Available data indicates this product is not expected to cause skin irritation.

### Respiratory or Skin Sensitization

Available data indicates this product is not expected to cause skin sensitization.

### Carcinogenicity

Titanium Dioxide: IARC Overall Evaluation is 2B (Possibly carcinogenic to humans) IARC evaluation guidelines consider the generation of tumors, in 2 different studies within the same animal species, to be adequate criteria for an assessment of sufficient evidence. The conclusions of several epidemiology studies on more than 20000 TiO<sub>2</sub> industry workers in Europe and the USA did not suggest a carcinogenic effect of TiO<sub>2</sub> dust on the human lung. Mortality from other chronic diseases, including other respiratory diseases, was also not associated with exposure to TiO<sub>2</sub> dust. Based upon these studies, titanium dioxide is not expected to cause lung cancer or chronic respiratory diseases in humans at concentrations experienced in the workplace.

### Germ Cell Mutagenicity

Available data indicates this product is not expected to be mutagenic.

---

**11. TOXICOLOGICAL INFORMATION**

---

**Reproductive Toxicity**

Available data indicates this product is not expected to cause reproductive toxicity or birth defects.

**Aspiration Hazard**

Not an aspiration hazard.

---

**12. ECOLOGICAL INFORMATION**

---

**Ecotoxicity**

Available data indicates this product is not expected to be ecotoxic.

**Mobility in soil**

No relevant studies identified.

**Persistence/Degradability**

No relevant studies identified.

**Bioaccumulative Potential**

No relevant studies identified.

**Other adverse effects**

No relevant studies identified.

---

**13. DISPOSAL CONSIDERATIONS**

---

**Disposal Methods**

Dispose of in accordance with all applicable local and national regulations.

---

**14. TRANSPORT INFORMATION**

---

Contact supplier for transport information.

---

**15. REGULATORY INFORMATION**

---

**United States TSCA Inventory**

This product contains ingredients that have not been verified for listing on the Toxic Substance Control Act Chemical Inventory.

**Canada DSL Inventory**

This product contains ingredients that have not been verified for listing on the Domestic Substance List (DSL).

**California Proposition 65**

This product contains the following materials which the State of California has found to cause cancer, birth defects or other reproductive harm: None

**SARA Title III Sect. 311/312 Categorization**

None

---

**15. REGULATORY INFORMATION**

---

**SARA Title III Sect. 313**

This product contains a chemical that is listed in Section 313 at or above de minimis concentrations. The following listed chemicals are present: None

---

**16. OTHER INFORMATION**

---

**Legend**

ACGIH: American Conference of Governmental Industrial Hygienists  
BOD: Biological Oxygen Demand  
CAS#: Chemical Abstracts Service Number  
FIFRA: Federal Insecticide, Fungicide and Rodenticide Act  
IARC: International Agency for Research on Cancer  
LC50: Lethal Concentration 50%  
LD50: Lethal Dose 50%  
N/A: Denotes no applicable information found or available  
NTP: National Toxicology Program  
OSHA: Occupational Safety and Health Administration  
PEL: Permissible Exposure Limit  
STEL: Short Term Exposure Limit  
TLV: Threshold Limit Value  
TSCA: Toxic Substance Control Act

Revision Date: May 5, 2015  
Replaces: March 30, 2011  
Changes made: Update to GHS.
